

Quality Macola Utilities to Improve Your Productivity

The following Macola Progression and ES software utilities have been developed by Leahy Consulting. Our utilities are all designed to increase your productivity and streamline your workflow. It has been said we really sell 'improved employee productivity' rather than software utilities. Most of our utilities are turn-key so you can start using them immediately. We are continuously developing new productivity utilities and will welcome your ideas.

- **Pulse Dashboard Reporting Software** – modules include Executive, Customer Service/Shipping, Financial Control, Sales & Marketing, Inventory, Purchasing and Production Control (in development). Visit www.PulseDashboard.com for more information and pricing.
- **Customer orders importing into from web site, Excel or EDI web orders** - This utility allows you to import customer orders from any external web site, Excel spreadsheet and/or web-based EDI file to create Macola orders. It also writes UPS tracking numbers back to the web site for customer tracking or writes EDI advanced shipping notices back to the EDI web service. (\$5,000 plus customization)
- **Bank lock box cash receipts import** - Import bank customer lockbox receipts directly into Macola. View all transactions, make changes and post them to the ES software. The software can import any format of bank lockbox files of cash receipts. This utility is now available to both the ES and Progression software. (\$5,000 plus customization)
- **Import/export utilities** – These very popular utilities allow you to import Macola data into Excel, make needed changes using the power of Excel and export the data back to Macola in minutes. Eliminates tedious record-by-record Macola manual changes.
 - o **Item & Item/location file** (\$700)
 - o **Customer Price Code file** – Maintain any of the eight Macola price code records. It also allows you to easily purge expired price code records. (\$700)
 - o **Bill of Material product structure file** (\$700)
 - o **Bill of Material Feature/Option file (in development)** (\$700)
 - o **All-in-One Import/Export Utility - New** - Select any of the major Macola files (except accounting files that affect the general ledger). (\$2,200)
 - o **Change due dates of released POP production orders** - Allows you to change the due date of any released, printed or partially reported production order. (\$700)
- **Production Tracking Dashboard** - (Progression) – This is for Macola customers that want the simplified processing of the Macola POP software but need to be able to track the quantity completed at each operation or department. Production reporting data is keyed or scanned. If you are using wireless bar code scanners, you can optionally update the dashboard in a real-time manner. (\$5,000 plus customizations)
- **Sales forecast import into Macola Master Schedule or MRP using Excel** – Export Macola historical sales data your way. Export forecast data from Excel to Master Scheduling or MRP. If you are using Forecast Pro, this utility imports historical Macola sales data into Excel, exports it to Forecast Pro, and pushes the resulting sales forecast back to your Macola database. This replaces Macola's Forecast Pro interface. (\$1,200)
- **General Ledger Budget Import/Export (ES)** – This utility replaces Macola's ES budget import program. It allows you to import budgets where you have multiple cost centers and multiple cost units for the same account. (\$1,000)
- **Positive Pay (check fraud prevention)** – This utility extracts check data from Accounts Payable and reformats it into a file that conforms to your bank's specifications. You transmit the file to your bank's Positive Pay department. (\$1,000 includes customization).

The Macola Flexibility software is not needed for any of the above software utilities and all utilities work with both the Macola Progression and ES software unless noted otherwise.

Annual maintenance – Annual pre-paid maintenance is 10% and includes unlimited training and upgrades.

First-year software installation & training – A first-year one-time fee of 10% includes the software installation and unlimited implementation and training assistance.
